PROJECTS

AI Assessment Platform | [Live](#) 2026

- Built an AI-powered question paper generator using Groq LLM with automatic model failover logic, ensuring zero-downtime under high load. Implemented **BullMQ + Redis** job queue for async processing with real-time WebSocket updates to clients, keeping the UI responsive under heavy computation.
- Containerized the full stack with **Docker** and added one-click PDF export. Stack: Next.js, TypeScript, Node.js, Express, MongoDB, Redis.

AI Study Planner (Microsoft Imagine Cup) | [Live](#) 2025

- Integrated **Azure OpenAI** to generate structured, personalized study schedules from raw syllabus data; adaptive algorithms reduced student planning time by an estimated **70%**.
- Developed real-time progress tracking endpoints and a responsive **React/Tailwind** dashboard with multi-modal AI tutoring and learning analytics.

Full-Stack MLM Web Platform (Freelance) | [GitHub](#) 2025

- Digitized manual record-keeping for **500+ members**, eliminating data redundancy; engineered Node.js MLM hierarchy engine that cut commission calculation time by **90%**.
- Built Admin Dashboard with automated Excel export tools for filtered user analytics and financial reports.

Freelance Portfolio Website | [Live](#) 2023

- Designed and developed a responsive portfolio for a freelance filmmaker (The Creative Cult) using React.js and Tailwind CSS, improving client outreach and online brand presence.
